General Description:

Length 4.50 in. , two 1.45in.By1.247 in. Min length sections of alum alloy tube 6061-t6, tube id is 0.9687 min by 0.9707 maximum having a slot on flat outside surface 0.0625 in. Min by 0.0675 in. Wide and 0.095 in. Nom depth, 0.150 in. Diameter hole centered on insert 180 degrees from slot, center hole distane from flat surface is 1.45 in. And countersunk 120 degrees by 0.19 in. Diameter with 0.138-32 unc-2b helical coil thd, one 0.116 in. Diameter hole csk 82 degrees by 0.18 in. Diameter centered along width 0.250 in. From flat outside surface of 2nd section of tube
