Cross Sectional Shape:

Plain round

Wall Thickness:

0.065 inches

First End Style:

Flange

First End Flange Outside Diameter:

5.250 inches

Second End Style:

Plain

Diameter:

4.000 inches

Second End Relationship With First End:

Not identical

Construction:

Seamless

Material:

Aluminum alloy

Material Specification:

Ww-t-700/4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
