Cross Sectional Shape:

Plain round

First End Style:

Plain

Diameter:

0.250 inches

Second End Relationship With First End:

Identical

Construction:

Seamless

Material:

Steel comp 304

Material Specification:

Astm a269, grade t+304 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
