Cross Sectional Shape:

Plain round

First End Style:

Outside undercut

First End Outside Diameter:

0.250 inches

First End Undercut Length:

0.750 inches

Diameter:

0.250 inches

Second End Relationship With First End:

Identical

Construction:

Seamless

Maximum Operating Pressure:

100.0 pounds per square inch

Measuring Method And Length:

12.000 inches specific

Material:

Steel comp 321

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
