Inside Diameter:

6.000 inches

Material Thickness:

0.0598 inches

Center To Center Distance Between Corrugations:

2.666 inches

Corrugation Depth:

0.500 inches

Special Features:

Zinc coated

Material:

Iron

Shape:

Full round

Specification Data:

81349-mil-p-236 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A545y0
