Cross Sectional Shape:

Plain round

Wall Thickness:

0.035 inches

First End Style:

Outside grooved

Diameter:

1.250 inches

Second End Relationship With First End:

Identical

Construction:

Seamless

Special Features:

Used on mewss

Material:

Aluminum alloy 6061

Material Specification:

T6 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A004a0
