Wall Thickness:

0.020 inches

End Application:

J400-wr-404 engine

Design Form:

Prebent

Tube Outside Diameter:

0.250 inches

Special Features:

Components include tube-coupling nut 2, sleeve-flared tube fitting 2, tube-cdp to oil mist gen. 1, color per mil-std-1247, material described as 03-310 (321 or 347 sst), developed straight length 13.002 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T383-d
