Cross Sectional Shape:

Plain round

Diameter:

0.920 inches

End Application:

Rockwell c130 turbine aircraft

Measuring Method And Length:

1.720 inches specific

Special Features:

Transfers air to the cooling air bearing; 1 end is flat to be used as a filter, other end is tapered

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
