Metallic Bent Tube - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4710-01-368-7490

Cross Sectional Shape:
Plain round
Wall Thickness:
0.035 inches
First End Style:
Single flare
Diameter:
0.250 inches
End Application:
6625-01-324-3935 probe & interconnecting tube assembly for duct; engine modle f110-ge-400
Second End Relationship With First End:
Identical
Special Features:
Components include tee-flared tube 1, probe ps-plane 15 2, right/left tube 1 ea.
Material:
Steel comp 304
Material Specification:
Astm a269, grade t+304 assn standard single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A004a0
