Cross Sectional Shape:

Plain round

Wall Thickness:

0.035 inches

First End Style:

Single flare

Diameter:

0.250 inches

End Application:

6625-01-324-3935 probe & interconnecting tube assembly for duct; engine modle f110-ge-400

Second End Relationship With First End:

Identical

Special Features:

Components include tee-flared tube 1, probe ps-plane 15 2, right/left tube 1 ea.

Material:

Steel comp 304

Material Specification:

Astm a269, grade t+304 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A004a0
