Cross Sectional Shape:	
Plain round	
Wall Thickness:	
Wall Thickness.	

## First End Style:

Plain

Diameter:

0.750 inches

Second End Relationship With First End:

Identical

**Construction:** 

Seamless

### **Special Features:**

Length of 37 inches

### Material:

Aluminum alloy 2024

# Material Specification:

Qq-a-225/6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

---

## Demilitarization:

No

### Fiig:

A004a0
