| Wall Thickness:                              |
|--|
| 0.044 inches                                 |
| Mating End Quantity:                         |
| 2 single end                                 |
| End Application:                             |
| U/0 hydraulic actuator; aircraft, b-2 bomber |
| Tubing Material:                             |
| Titanium alloy, ti-3al-2.5v                  |
| Design Form:                                 |
| Prebent                                      |
| Tube Outside Diameter:                       |
| 0.625 inches                                 |
| Special Features:                            |
| Coiled tubing; working pressure 4000 psi     |
| Shelf Life:                                  |
| N/a  |
| Unit Of Measure:                             |
|  |
| Demilitarization:                            |
| No   |
| Fiig:  |
| T383-d                                       |
|  |
