Cross Sectional Shape:

Plain round

Wall Thickness:

0.035 inches

First End Style:

Single flare

Diameter:

0.500 inches

End Application:

Fixed wing aircraft, hercules model c-130j

Second End Relationship With First End:

Identical

Material:

Aluminum alloy

Material Specification:

Ww-t-700/4, type 1 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A004a0
