Wall Thickness:

0.044 inches

End Application:

Used on outboard wing, aircraft, b-2 bomber

Tubing Material:

Titanium

Design Form:

Prebent

Tube Outside Diameter:

0.625 inches

Product Name:

Coiled tube, hydraulic actuator

Special Features:

T1-3al-2.5v seamless tubing, per eaa1734d042-1; type ends iv; working pressure 4000 psi; length 50.2 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T383-d
