Cross Sectional Shape:

Plain round

First End Style:

Plain

Diameter:

0.250 inches

End Application:

Rectifier, 900-21700

Second End Relationship With First End:

Identical

Product Name:

Jogged tube

Special Features:

Prebent tube 4.63 in long with two bends

Material:

Copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
