Cross Sectional Shape:

Round

Inside Diameter:

0.750 inches

Exterior Color:

Yellow

End Application:

Fighter aircraft (f18 e/f) (e-nsn isil)

Maximum Operating Pressure:

200.0 pounds per square inch

Criticality Code Justification:

Agav

Measuring Method And Length:

7.0 feet excluding end fittings

Product Name:

Hose, pod side

Special Features:

Black nitrile tube with yellow nbr/pvc blend cover and textile spiral reinforcement; assembly comprised of hose (1-0.750 id), fitting hose crimp (1 steel 0.750 inch npt)

Material:

Plastic tube and rubber tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541y0
