Cross Sectional Shape:

Plain round

First End Style:

Single flare

End Application:

2350-01-458-7550

Second End Relationship With First End:

Identical

Construction:

Straight seamed

Product Name:

Tube assembly, metal

Special Features:

Flare both end iaw sae-as4330; deformation in radius of tube will not exceed flatness, scratch and wrinkle values iaw sae as33611; insulation sleeving iaw m23053/5-11-2-red; clean and protect iaw mil-std-419; both ends have couplings

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
