Wall Thickness:

1.687 inches

End Application:

Tube ay, hydr, p22mlio cpt; lio/tc piping installation-02

Tubing Material:

Nickel alloy, ams 5599

Design Form:

Prebent

Tube Outside Diameter:

0.500 inches

Product Name:

Tb ay, hydr, p224 lio

Special Features:

Item name text is tube assembly, metal; bending of nickel alloy pipe or tubing shall be in accordance with military standard 1627c; manufacture of nickel alloy welding rod shall be in accordance with military standard mil-e-21562; 3000 identification labels are required; identify parts on parts list per military standard 130; contract number is n00024-94-c-6200; next higher assembly is 5793195 used on asds; parts list was last revised on may 12, 2003; document title is tubing assembly, hydraulic, p224, lio cpt; welding rod is made of nickel alloy and shall be in accordance with military standard e-21562

Specification Data:

53711-6394897 government standard

Purchase Description Identification:

53711-p224, lio cpt

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T383-d
