Cross Sectional Shape:

Plain round

Wall Thickness:

0.035 inches

First End Style:

Single flare

Diameter:

0.500 inches

End Application:

2350-01-458-7550

Product Name:

Tubing

Special Features:

Clean per method c-1 and dry per specification mil-p-116; pressure test at 3000.0 psig for one minute using hydraulic fluid; tube is part of an assembly, p/n 5433054; nha assembly is cage 80064 and p/n 2617034

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A004a0
