Cross Sectional Shape:

Plain round

End Application:

V-22 aircraft

Construction:

Seamless

Maximum Operating Pressure:

3.0 pounds per square inch

Material:

Aluminum alloy 6061

Material Specification:

Ams-ww-t-700 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
