Wall Thickness:

0.020 inches

End Application:

F-16

Tubing Material:

Steel, corrosion resisting

End Connection Style:

Unthreaded external all ends

Design Form:

Prebent

Tube Outside Diameter:

0.500 inches

Product Name:

Tube, lubricant-cooling, access grbx

Special Features:

Export controlled; 1st bend 7.7, 2nd bend 8.9, 3rd bend 80.5, 4th bend 52.7, 5th bend 32.3 degrees; 600 psi proff pressure; both ends flared; prebent length 22.46 inches; nha is 16p1331

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T383-d
