Cross Sectional Shape:

Plain round

Wall Thickness:

0.065 inches

First End Style:

Outside beaded

Second End Style:

Outside beaded

Diameter:

1.000 inches

End Application:

2320-01-549-8577

Second End Relationship With First End:

Identical

Product Name:

Tube, fill

Material:

Steel stainless

Material Specification:

Astm a269 grade t+304 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
