Wall Thickness:

0.5 inches

Diameter:

18.0 inches

End Application:

Oh58d

Product Name:

Tube assembly-upper engine pan drain

Special Features:

Corrosion resistant (304) annealed

Material:

Steel stainless

Material Specification:

T8506 military standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
