Cross Sectional Shape:

Plain round

Wall Thickness:

1.65 inches

First End Style:

Outside beaded

First End Outside Diameter:

101.6 millimeters

First End Bead Outside Diameter:

Between 105.5 millimeters and 106.5 millimeters

First End Length From Bead Center To End:

Between 5.6 millimeters and 7.2 millimeters

End Application:

3805-01-550-7164

Second End Relationship With First End:

Identical

Maximum Operating Pressure:

240.0 kilopascals

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
