Wall Thickness:

0.035 inches

Mating End Quantity:

2 all ends

End Application:

1733-00-0,5-4100

Tubing Material:

Steel, astm a269

End Connection Style:

Swivel nut, flared all ends

Design Form:

Prebent

Tube Outside Diameter:

0.375 inches

End Connection Specification/std:

Sae j514

Product Name:

Tube assembly return - apu and fuel fired heater

Special Features:

Color is geen

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T383-d
