Overall Length:

39.50 inches

End Application:

Chemical biological protective shelter model 8e1

Tubing Material:

Steel, stainless

Design Form:

Straight

Product Name:

Tube assembly, fuel supply-apu

Special Features:

Tube assembly must be able to withstand internal pressure of 20 psi. Color-green.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T383-d
