Cross Sectional Shape:

Round

Wall Thickness:

0.062 inches

Tempurature Rating:

-40.0 degrees fahrenheit and 200.0 degrees fahrenheit single response

Outside Diameter:

0.375 inches

Inner Conveying Tube Style:

Plain

Burst Test Pressure:

1400.0 pounds per square inch single response

Measuring Method And Length:

38.0 inches

Product Name:

Air brake tubing line

Media For Which Designed:

Air single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
