Cross Sectional Shape:

Plain round

Wall Thickness:

0.028 inches

End Application:

Space radar

Construction:

Seamless

Maximum Operating Pressure:

3700.0 pounds per square inch

Product Name:

Tubing, seamless

Special Features:

Inside dia: 0.194 in; outside dia: 0.250 in; cage code 0xh87, is the design control activity, no part number.

Material:

Steel comp 316

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A004a0
