Cross Sectional Shape:

Round

Inside Diameter:

1.375 inches

Outside Diameter:

1.625 inches

Exterior Color:

Red

Burst Test Pressure:

50.0 pounds per square inch single response

Layer Composition And Location:

Outer layer rubber impregnated woven cotton cord or outer layer rubber impregnated woven fabric

Inside Surface Condition:

Smooth

Measuring Method And Length:

1.500 inches

Material:

Rubber synthetic tube

Media For Which Designed:

Alcohol, methyl single response and ethylene glycol single response and water, fresh single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
