Cross Sectional Shape:

Round

Inside Diameter:

4.250 inches first end

Connection Type:

Plain both ends

Features Provided:

Ozone resistant

Maximum Operating Pressure:

1.0 pounds per square inch

Special Features:

Two separate mtg flanges; the small flange has 3 mtg holes 0.236 in. Dia; the large flange has 11 mtg holes 0.250 in. Diameter each

Material:

Rubber synthetic single ply

Style Designator:

Sleeve section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A229a0
