Cross Sectional Shape:

Round

Inside Diameter:

1.000 inches

Outside Diameter:

1.438 inches

Exterior Color:

Green

Layer Composition And Location:

1st layer braided synthetic cord err-100

Inside Surface Condition:

Rough

Measuring Method And Length:

86.000 inches

Special Features:

Outer cover corrugated

Material:

Rubber synthetic tube

Media For Which Designed:

Hydraulic fluid single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
