**Cross Sectional Shape:**

Round

**Outside Diameter:**

1.500 inches

**Layer Composition And Location:**

1st layer spirally wrapped polytetrafluoroethylene fabric err-100

**Outer Covering Environmental Protection:**

Ethylene glycol resistant and heat resistant and mildew resistant

**Inside Surface Condition:**

Smooth

**Material:**

Rubber silicone class q tube

**Media For Which Designed:**

Fuel/oil, hydrocarbon single response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A541z0
