Cross Sectional Shape:

Round

Outside Diameter:

1.500 inches

Layer Composition And Location:

1st layer spirally wrapped polytetrafluoroethylene fabric err-100

Outer Covering Environmental Protection:

Ethylene glycol resistant and heat resistant and mildew resistant

Inside Surface Condition:

Smooth

Material:

Rubber silicone class q tube

Media For Which Designed:

Fuel/oil, hydrocarbon single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
