**Cross Sectional Shape:**

Round

**Inside Diameter:**

1.250 inches

**Burst Test Pressure:**

800.0 pounds per square inch single response

**Layer Composition And Location:**

Outer layer spirally wrapped cotton fabric err-100

**Hydrostatic Test Pressure:**

500.0 pounds per square inch single response

**Inside Surface Condition:**

Smooth

**Measuring Method And Length:**

3.500 inches

**Material:**

Plastic polyethylene tube

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A541z0
