Cross Sectional Shape:

Round

Inside Diameter:

1.250 inches

Burst Test Pressure:

800.0 pounds per square inch single response

Layer Composition And Location:

Outer layer spirally wrapped cotton fabric err-100

Hydrostatic Test Pressure:

500.0 pounds per square inch single response

Inside Surface Condition:

Smooth

Measuring Method And Length:

3.500 inches

Material:

Plastic polyethylene tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
