Cross Sectional Shape:

Round

Inside Diameter:

0.218 inches

Outside Diameter:

0.406 inches

Layer Composition And Location:

Outer layer braided synthetic cord

Inside Surface Condition:

Smooth

Measuring Method And Length:

32.000 inches

Material:

Rubber tube

Material Specification:

Zz-h-617, type 1, class 1 federal specification 1st material response tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A541z0
