Cross Sectional Shape:

Round

Inside Diameter:

2.500 inches

Outside Diameter:

2.938 inches

Layer Composition And Location:

1st layer helix wire coil err-100

Inside Surface Condition:

Smooth

Measuring Method And Length:

120.000 inches

Material:

Rubber polyisoprene natural class nr tube

Media For Which Designed:

Water single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
