Cross Sectional Shape:

Round

Inside Diameter:

6.000 inches first end

Connection Type:

Plain both ends

Features Provided:

Ozone resistant

Maximum Operating Pressure:

14.5 pounds per square inch

Measuring Method And Length:

3.900 inches

Material:

Rubber synthetic 1st ply

Style Designator:

Sleeve section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A229a0
