Cross Sectional Shape:

Round

Inside Diameter:

0.359 inches

Outside Diameter:

0.625 inches

Exterior Color:

Black

Layer Composition And Location:

Outer layer molded rubber

Inside Surface Condition:

Smooth

Measuring Method And Length:

17.500 inches

Material:

Rubber tube

Media For Which Designed:

Hydraulic fluid single response and fuel/oil, hydrocarbon single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
