General Description:

Consists of 1 hose assembly, nonmetallic, inner conveying tube material, rubber, buna n, smooth inside surface, braided stainless steel reinforcement layer, round cross-sectional shape, 0.329 in. Min id, 0.570 in. Maximum od, 2.500 in. Min inside bending radius, operating temp range, minus 65 degrees f, plus 125 degrees f, 2 psi operating pressure, 4 psi hydrostatic test pressure, 8 psi burst test pressure, first end connection, thd internal swivel nut, second end connection attached to 1 tube assembly, metal, tubing material, steel, corrosion resisting, 0.375 in. Nom tube od, 2nd end, thd external connection, 0.500-20, unf, class 3a, rh thd, prebent, working lg of complete assembly 43.000 in.
