Cross Sectional Shape:

Round

Inside Diameter:

0.375 inches

Outside Diameter:

0.750 inches

Layer Composition And Location:

1st layer rubber impregnated fabric err-100 or 1st layer spirally laid cord strands err-100

Outer Covering Environmental Protection:

Abrasion resistant and oil resistant

Inside Surface Condition:

Smooth

Measuring Method And Length:

72.000 inches

Material:

Rubber synthetic tube

Media For Which Designed:

Air single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A541z0
