Wall Thickness:

Between 0.172 inches and 0.250 inches

Inside Diameter:

4.000 inches

Outside Diameter:

5.500 inches

Bulge Width:

1.625 inches

Special Features:

Oil and heat resistant

Material:

Rubber synthetic

Material Specification:

Sae class r, grade 1a assn standard single material response

Style Designator:

Center hump

Working Length:

5.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542b0
