Cross Sectional Shape:

Round

Wall Thickness:

0.025 inches

Inside Diameter:

3.500 inches first end

Endlength:

5.000 inches both ends

Connection Style:

Round both ends

Connection Type:

Preformed both ends

End Inside Diameter:

3.500 inches both ends

Measuring Method And Length:

360.000 inches

Special Features:

Grumman aerospace a-10 aircraft

Material:

Rubber silicone class q 1st ply

Style Designator:

Sleeve section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A229a0
