Cross Sectional Shape:

Round

Inside Diameter:

0.500 inches

Outside Diameter:

0.750 inches

Exterior Color:

Clear

Min. Tensile Strength (psi):

2000 pounds per square inch

Outer Covering Environmental Protection:

Cold resistant and fire resistant

Inside Surface Condition:

Smooth

Measuring Method And Length:

240.000 inches

Material:

Plastic polyvinyl chloride tube

Specification Or Standard:

6 type and 6 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
