Nonmetallic Tubing - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4720-00-709-0441

Cross Sectional Shape:
Round
Inside Diameter:
0.500 inches

Outside Diameter:
0.750 inches

Exterior Color:
Clear

Min. Tensile Strength (psi):
2000 pounds per square inch

Outer Covering Environmental Protection:

Inside Surface Condition:

Cold resistant and fire resistant

Smooth

Measuring Method And Length:

240.000 inches

Material:

Plastic polyvinyl chloride tube

Specification Or Standard:

6 type and 6 class

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A54200
