Wall Thickness:

0.219 inches

Inside Diameter:

1.750 inches

Unable To Decode:

Unable to decode or unable to decode

First Arm Length:

7.506 inches

Second Arm Length:

5.000 inches

Special Features:

Both ends on 90 degrees radius

Material:

Rubber chloroprene class cr

Material Specification:

Zz-h-428, type 5, grade b, class 2 military specification single material response

Working Length:

8.500 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542b0

Mil-std (military Standard):

spec.
