Cross Sectional Shape:

Round

Layer Composition And Location:

1st layer braided cotton cord and 2nd layer braided corrosion resistant steel wire and outer layer rubber impregnated cotton fabric

Outer Covering Environmental Protection:

Oil resistant

Inside Surface Condition:

Smooth

Media For Which Designed:

Fuel/oil, hydrocarbon single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A542a0
