| Cross Sectional Shape:                        |
|---|
| Round   |
| Thread Class:                                 |
| 3b 1st end                                    |
| Thread Direction:                             |
| Right-hand 1st end                            |
| Connection Style:                             |
| Swivel nut flare 2nd end                      |
| End Connection Design:                        |
| Straight 1st end                              |
| Connection Type:                              |
| Threaded internal tube 1st end                |
| Features Provided:                            |
| Electrostatic discharge capability            |
| Thready Qty Per Inch (tpi):                   |
| 20 2nd end                                    |
| Thread Size:                                  |
| 0.500 inches 2nd end                          |
| Seat Angle:                                   |
| 37.0 degrees 2nd end                          |
| Hydrostatic Test Pressure:                    |
| 1500.0 pounds per square inch                 |
| Inside Surface Condition:                     |
| Smooth  |
| Measuring Method And Length:                  |
| 6.280 inches working and 6.360 inches working |
| Special Features:                             |
| Preformed assembly                            |
| Media For Which Designed:                     |
| Fuel/oil, hydrocarbon single response         |
| Thread Series Designator:                     |
| Unf 2nd end                                   |
| Shelf Life:                                   |
| N/a   |
| Unit Of Measure:                              |
|   |
| Demilitarization:                             |
| No  |
| Fiig:   |
