Cross Sectional Shape:

Round

Wall Thickness:

0.085 inches

Inside Diameter:

3.005 inches first end

Connection Type:

Plain first end

Features Provided:

Ozone resistant

Measuring Method And Length:

2.755 inches

Material:

Fiberglass all plies and rubber chloroprene class cr all plies

Style Designator:

Sleeve section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A229a0
