Cross Sectional Shape:

Round

Inside Diameter:

0.250 inches

Outside Diameter:

0.344 inches

Exterior Color:

Clear

Min. Tensile Strength (psi):

2400 pounds per square inch

Outer Covering Environmental Protection:

Cold resistant

Inside Surface Condition:

Smooth

Material:

Rubber natural tube

Specification Or Standard:

1 type and 2 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A54200
